Guru Gobind Singh Indraprastha University, Delhi

Technical Skills & Projects

Programming: java, c/c++, JavaScript, Python, Php, Dart, Kotlin,SQL
Frameworks: React.js, Flutter, Angular, Node.js, Express.js
Stacks: MERN, WAMP
Database: MySQL, MongoDB

Pkart – Android App in Kotlin

Developed android project using Firebase, roomdb and Kotlin which consist two apps both for user and admin allowing CRUD operations. Realtime updation in cart feature and integration with Razor Pay Api for payment. App use Google authentication provided by Firebase.

Attendance Management System – WAMP

Developed an AMS for college using PHP and backend, HTML & CSS and frontend and MySQL for database allowing teacher and students to do CRUD operations and teacher can mark attendance and generate report and student can see their attendance and collect report. Special features like time limit for the day and no back date attendance are implemented with proper validation.

THECOAD – React.js [LINK](#)

Developed a frontend website for college programming society using React.js.

Certification(s)

- Core Java – Udemy [LINK](#)
- Web Development – Internshala [LINK](#)

Leadership

Innovation & Startup Cell – BCIIT

Chief Strategist & Coordinator

- In my capacity as the strategic lead for the cell, I collaborated with the team to meticulously formulate a comprehensive roadmap for the planning and execution of various cell activities. This strategic initiative culminated in the successful organization of Prakalp 2023, the orientation program tailored for incoming freshmen.

Grievance Redressal Committee – BCIIT

Student Member - MCA

- The GRC holds a pivotal role within the purview of the All India Council for Technical Education (AICTE). I had the privilege of contributing to the GRC as a student representative, representing the Master of Computer Applications (MCA) program.
